ABOUT ME

I am a 39yo Brazilian who has been living in New Zealand for more than 9 years. I started coding 3y ago doing online courses at night and weekends while working during week-days.

Recently I have completed a Software Development Bootcamp with Dev Academy where I rapidly improved my skills and expanded my knowledge.

I am in love with Web Development and want to be part of New Zealand's Tech Industry Growth.

I am a team player, enthusiastic and a quick learner.

My previous experiences as a Tour Guide (back in Brazil), Hotel Receptionist and Abseiler gave me great interpersonal skills and the ability to work well under pressure. I enjoy working with challenges.

EXPERIENCE

Home Office, Remote— *Student*
